

May Howard Pre-K

Week 4 Independent Learning Days

Tuesday, April 14th

Good morning Pre-K! Please choose from any of the activities below and have fun learning at home. If you choose to go on an adventure or engage in play based learning instead of the activities below, we'd love to hear about what you have engaged in (a visit to a park, creating art, fine motor practice, cooking). Keep reading books with your children. Snuggling up and reading an actual book is the best, but online stories are great too! Epic, Story online, and Story time from Space are all online options (bottom right section of the symbaloo <https://mayhowardprek.weebly.com/additional-activities.html>) Have fun!

Language and Literacy CLL5.4b / CLL6.4c	Social Studies SS1.4b/SED1.4b	Math MA2.4c/MA3.4b	Science SC1.4a-d
<p>After listening to The Very Impatient Caterpillar, draw a picture of something that happened in the story. Retell the events of the story.</p> <p>Or</p> <p>I spy...</p> <p>Play a game of "I spy". Instead of looking at colours let's focus on initial sounds. For example: "I spy with my little eye something that starts with the sounds /t/". A table! Have a go at sounding the words and guessing the words your family is thinking of.</p>	<p>It's all about... you!</p> <p>We are all unique, understanding who we are helps us build stronger relationships. Today we have a fun worksheet you can use to think about who you are, the things you like and the people in your family. Anyone in your family can make their own.</p>  <p>You can also find the sheet here It's all about.jpg</p> <p>Or</p> <p>Draw a self portrait</p> <p>Take a small mirror and look at your face. Observe the shapes you see, colours, sizes, and draw a self-portrait on</p>	<p>After our reading of The Very Hungry Caterpillar by Eric Carle, gather a (paper, pretend, be creative!) caterpillar and the foods that the caterpillar eats in the story (or draw these items). Retell the story having your child count out the pieces of food. Ask questions such as, "The caterpillar ate one apple and three plums. How much food has he eaten now?"</p> <p>OR</p> <p>Measurement</p> <p>Measure using either paperclips, toothpicks, earbuds, lego blocks, lollipop sticks or whatever you can find in your house that are the same length. Choose 6 items to measure and place the paperclips from the bottom to the top of the object to measure the length. If you like, make a chart and record your answers.</p>	<p>Make a volcano</p> <p>Explore how some ingredients interact with each other.</p> <p><u>Ingredients</u></p> <p>Vinegar Baking soda Food coloring</p> <ul style="list-style-type: none"> ● Find a small bottle and place it on a tray. ● Place two teaspoons of baking soda in the bottle ● Add a few drops of food coloring ● Gently pour in the vinegar. <p>Now watch the volcano explode! Could you redo the experiment using different amounts of baking soda and vinegar? Which combination made the biggest or smallest explosions?</p>

	<p>the sheet below.</p>  <p>You can also find the sheet here self portrait.jpg</p>

<p>Mindfulness APL1.4a</p>	<p>Art CR2.4a / CLL2.4b</p>		
<p>Cosmic Yoga</p> <p>Explore yoga, the story of The Very Hungry Caterpillar and fun with this session of Cosmic Yoga.</p> <p>https://www.youtube.com/watch?v=xhWDiQRrC1Y</p>	<p>Explore sound by making singing straws. Did you know that straws can make music? Straws will make different sounds when you blow into them.</p> <p>For this activity you will need some straws, tape and scissors. Help children to measure and cut the straws. Set up the straws from the shortest to the longest. Then tape straws together and blow into the airways. I wonder if paper straws work too? Now get ready to play music. Have fun!</p>
